

Clearinghouse Channel Partner

THE CHALLENGE

A large clearinghouse with expertise in front-end editing and claims processing needed to expand its platform to include clinical content with coding and billing edits. The clearinghouse did not want to develop and host the content. Its ideal partner, as a coding expert, would develop, host, and maintain clinical content—allowing the clearinghouse to focus on its own strengths while providing a more robust product. As a customer-focused platform, the clearinghouse was also looking for an integrated solution to make pricing and performance easier for its providers.

THE SOLUTION

With our hosted, SaaS-based content platform, Aptarro was able to offer a fully integrated solution. As a result, the clearinghouse now has a robust clinical coding and editing solution, creating cost savings and efficiencies for its providers. Aptarro's specialty is its focus on clinical content, which is updated in near realtime, while other clearinghouse solutions maintain their own content quarterly.

Improve your organization's financial and operational health.

THE RESULTS

The partnership continues to contribute to denial prevention, improved revenue integrity and new business portfolio growth. The client secured two large PMS solutions since the previous partners couldn't match Aptarro's level of seamless editing.
